

SHREYAS LOHAKARE

shreyaslohakare40@gmail.com | +91-9022585602 | [Github](#) | [Portfolio](#) | [LinkedIn](#) | Pune, Maharashtra

SUMMARY

IT undergraduate with experience building full-stack web applications using React.js, Node.js, Java, and REST APIs. Familiar with cloud deployment, CI/CD, and modern AI development tools. Passionate about AI-powered software development and eager to learn .NET Core and enterprise technologies.

EDUCATION

Bachelor of Technology in Information Technology

Pimpri Chinchwad College Of Engineering Akurdi,
Pune

6.5 | 2023-27

Higher Secondary Certificate (CET:96.73)

Chaitanya's Internation School Baramati, Pune

62% | 2022-23

Senior School Examination

Air Force School Vimannagar, Pune

86% | 2020-21

PROJECTS

1] Esports-World | [Github](#)

- Designed and developed a **centralized platform connecting youngsters and alumni for tournament-related activities**, enabling better enthusiasm, engagement, and playful sharing.
- Tech stack: **React js, REST APIs, MySQL, Node.js, HTML,CSS**
- Built features including CRUD operations for alumni and companies, blog posting, liking, commenting, and sharing; developed a responsive UI with reusable components and optimized data fetching.
- Delivered a secure, scalable, and interactive platform enhancing userplaying tournament, engagement, and efficient data management.

2] AgriVenture | [Github](#)

- Designed and developed a **web application** to help **farmers manage agricultural activities** efficiently.
- Implemented features including **crop price prediction, crop recommendation, and weather forecasting**, providing farmers with actionable insights for decision-making.
- Built the frontend using **ReactJS** for a responsive and intuitive user interface.
- Developed the backend using **Node.js** and **Express.js**, integrating **MySQL** for data management and **machine learning algorithms** for predictive tasks.

SKILLS

- Programming Languages: Java, JavaScript
- Frameworks & Libraries: Spring Boot, ReactJS, .NET Core
- Web Technologies: HTML, CSS,
- Databases: MySQL, MongoDB, SQL Server
- Tools & Version Control: Git, GitHub, Maven, IntelliJ IDEA, VS Code, Jenkins
- Cloud & DevOps: Microsoft Azure, GitHub Actions (Workflows)
- Architecture & Core Concepts: Microservices, REST API, OOPs
- AI & GenAI: GitHub Copilot, OpenAI API, Prompt Engineering
- machine learning algorithms** for predictive tasks.

CERTIFICATIONS and TECHNICAL ACTIVITIES

- Full stack with JAVA(Simple learn certificate)
- Solved 50+ problems
- Codechef rating(2*)
- Big data Computing(NPTEL Pursuing)
